

CHEMICALS: REVEAL diluted 1:10

EQUIPMENT:

Personal Protective Equipment (goggles, gloves)
Wet Floor Signs
Dust Mop
Putty Knife

2 Clean Mop Buckets with Wringer
2 Clean Cotton Mops with handle
Wet Pick-up Vacuum (optional)
Dust Pan & Broom

PROCEDURES:

STEPS	KEY POINTS
1. Assemble equipment.	1. See above.
2. Remove any free-standing objects from the floor. Vacuum the walk-off mats and set aside.	2. Place "Caution-Wet Floor" signs at the end of each area. Place walk-off mat at exit area.
3. Dust mop the entire floor. Remove any gum or other material with a putty knife.	3. Deposit in waste receptacle. Work towards the end of the aisle, pick up with dust pan & broom.
4. If the cleaner is not automatically dispensed, mix according to label directions with cool water.	4. Do not use hot water or damage to floor coating may occur. Wear appropriate safety equipment when handling chemicals.
5. Dip the mophead into the cleaning solution and lightly wring out. Apply in an overlapping figure 8 pattern to ensure full even coverage of all floor areas.	5. Return mop to cleaner bucket often to ensure thorough floor cleaning. Change the cleaning solution when it becomes heavily soiled.
6. Allow the cleaner solution to remain on the floor for 5 minutes then pick up with mop or wet vacuum.	6. Do not allow the surface to dry before picking up soiled cleaner solution.

7. Use the clean rinse mophead and bucket, apply warm rinse water and pick up with mop or wet vacuum. Allow floor to dry.

8. Clean all equipment. Return to its appropriate area. Remove wet floor signs.
9. Replace all moved furniture when floor is dry.

7. Change rinse water when its becomes heavily soiled.
8. Equipment in good clean working order improves the quality of the result.
9. Return of moved items leaves job complete.
